To whom it may concern,

I am writing to recommend Ms. Suzanne Morgan for future funding to support her interfaith work. Suzanne has a remarkable breadth of knowledge and experience and she brings these gifts to new and interesting interfaith work.

As an architect, she brings great appreciation for beauty and the meaning of sacred structures, windows, entrances and alignment of sacred spaces. She is a lifelong learner with a special interest in religious practices and beliefs. She knows the value of hospitality when bringing different faith communities together. She is familiar with architectural religious expressions all across the globe.

She is also committed to other interfaith efforts such as Faiths Against Hate, a new initiative of the Council for a Parliament of the World's Religions. She is an advisory board member for the Council for a Parliament of the World's Religions. She is aiding to select the location for the next Parliament.

I have worked with her and find her to be creative, imaginative, purposeful and respectful of those she works with.

With additional funding, she will do even more good work in interfaith arenas.

Best Regards,

Rev. Kathy Dale McNair
