

Zonnebloem Estate  
Cape Town  
South Africa

On behalf of the Western Cape Religious Leader's Forum and the Cape Town Interfaith Initiative I would like express our appreciation to SAFCEI for the excellent Energy Crisis Briefing that was prepared and presented to the Faith Leaders. The vision of both of these organisations is to have a strong informed religious leadership that is able to guide their constituencies around the critical issues of our time. Those who attended from the Christian, Buddhist, Jewish and Muslim faith were enlightened by some expert input and I feel sure that the material gained will be further disseminated so that the faith sector may be more fully informed and engaged in the struggle for a cleaner, smarter and environmentally sustainable energy future for South Africa.

With appreciation

Fr. John Oliver
