

Madrid March 6, 2018

As President of the UNESCO Getafe-Madrid Center and the Spanish Federation of Associations and Clubs of UNESCO, I would like to congratulate the Casa Turca of Madrid and Arco Fórum for the work they have been doing for many years on intercultural and interreligious development with different cultures.

Work that is in line with the fundamental pillars of UNESCO, Education, Science, Culture and Communication and Information, as is the case of *the Three Cultures Concert* with which we have been collaborating for 5 years during the "**World Interfaith Harmony Week**" proclaimed by the General Assembly of the United Nations in 2010 among all religions, confessions and beliefs, affirming that mutual understanding and dialogue between religions constitute important dimensions of the culture of peace.

It is for this reason that I reaffirm and it is my wish that both Institutions, in respect of cultural diversity, tolerance, dialogue and cooperation, constitute a bond of union with the Sustainable Development Goals included in the UN Agenda 2030 along side representing one of the best guarantors of Peace and International Security.

Alberto Guerrero Fernández

President
