

## **The Report , February 1, 2016**

### **Revenge.....its dangerous and how to find Solution to build Communities live in Peace**

*It is a great initiative for holding 'A World Interfaith Harmony Week' in Hashemite Kingdom which set up by King Abdullah II, king of Jordan. In Egypt, we understand the spiritual side of this Initiative, especially in Upper Egypt, because it is a path of what the great messages said and what we need of humanity. It is a message of Love Allah (God) , Love neighbour and Love humanity.*

*We descended from one mother and a father, so respecting human being is the main base for loving the great messages without discrimination. Allah The Great, created man in a better shape, without all creations, this for construct the Earth and discover His Majesty in the Universe Creation. So we should thank Him each time.*

*Allah Loves His worshippers, so He sends His messengers to show people the right path of life and reject violence , hate and fighting among people. This great message of goodness from Adam Peace be upon him till the last messenger Muhammed peace be upon him too.*

*All Messengers and prophets , since Hued , Saleh , Lute, Abraham ,.....Yousef , Moses , Jesus and the last one Mohamed bore and suffer the rough and bad dealing of people while invite these people to worship Allah and do goodness. This great call for Tolerance , peace and love in Jewish , Christian and Islam.*

*His great blessing for humanity is great because human self is fragile and easily to fall in sins , so all temples , churches and mosques should continue in introducing preaches and advises to all people .Sure such good talk , we always find it in the site of Interfaith Harmony Week and in its social site.*

### **The biography of harmony Week in Egypt.**

#### **1) 2013**

*As I was in my School, there was a leaflet about 'A world harmony interfaith week' came to my school from the Directorate of Education. First I couldn't understand what can I do? And it was luckily, I was worked on projects based on learning. So, I set a project about protecting street children and set up a social page and a site to publish my work. I shared my work with other teachers and my students. my colleague wrote a message , then I reform it and add meaning and good title to it and introduced it in a better style . It is called ' A World without Symbols' . so , we were very happy to share this great message of peace. At that time there were only two participant from Egypt at the Site.*

#### **2) 2014**

*The Second participant was in 2014. Surely, we understand the purpose of the message. it is about social situations , where people of all community joined together in practising game , match , meeting , party , having meals , competition and quizzes for occurring happiness and good feeling of joy .You really feel happiness when you help poor people or help in completing weddings party . It is really situations of*

*happiness and smiles over people's faces to relieve people from sadness and to reject all kinds of violence. We were happy to share with our message under the title of ( A World without..... Prejudice). The numbers of participant at this time were seven.*

### **3) 2015**

*The third participation was in 2015 . My aim was to convey the message to Egyptian organisations, schools ,universities and social sites online and this happened when I visited Assiut University and several Schools and we have a TV interview in ' Rotana Masria Channel' and Ezz El Shabbab Programme' and the local broadcasting in Assiut city. The idea was succeeded and lots of schools and organisation shared. Our message was under the title of 'The Neighbour before Home' .We achieved great events over the year. The number of the chosen participant at that time of the letter of support were seventeen.*

### **4) February 2016,**

*Egyptian people are still suffer from the effects of the Egyptian revolutions, although there were some improvements. The drawbacks were great as the increasing of employments and the problem of housing for youths, especially in the country, this leads to great problems as youths workless such as robbery , struggles among youths on their sitting in café annoying girls and women . All this caused trouble in safety among Muslim and Christian inside society as we have seen completely families were dead due to revenge and hate among them in Assiut , Sohag, El Minia and Aswan governorates,. So , to face such issues and return calm to the self of humanity , we did several activities.*

*I visited great organisation inside my governorate to share my works and spread the word of tolerance , peace and love among people. These two organisation are The Directorate of Education( headed by Undersecretary of education) and the organisation of Egyptian House ( includes Muslim and Christian members). The purpose of this sharing is to spread peace and do reconciling among people either Muslim and Muslim or Muslim and Christian or Christian and Christian and to save jobs for youths and women and pay attention for orphans and removing the illiteracy of technology and illiteracy of reading.*

*The Goal is to create wise generations of love and self respect and able to build communities. So , we set up a site and page on social sites, facebook and twitter to convey our message. Here a side of our activities:*

**31/1/2016 is the time of planning for our event which will happen in first week of February.**

#### **1)First event :1/2/2016:**

*A meeting includes the Head of Assiut Directorate of Education and the Leaders of organisations. Mr.Abdel Fatah Abu Shama and Coordinator of the event and the leaders in Assiut city. It includes speeches about ' A world interfaith Harmony Week'*
