Dear Jammil

I am writing with great pleasure to acknowledge all the great work that the Islamic society has done this academic year. The Islamic Society of University of Lincoln have actively engaged in the life of the university community and at large through their different initiatives. Discover Islam week, a series of events that helped members of the Islamic society and people of other faiths and local community to hear and learn about Islam. Being led by the students I am very much impressed by the dedication, commitments and enthusiasm that you have put into different activities. You have engaged and supported other university events especially Chaplaincy Peace Garden and other Global week events.

Your representation and active participation was remarkable. You have also worked in partnership with other external organisations such as Lincolnshire Police, St. Barnabas Hospice and Cancer Research - your work was quite inspiring. You have done lots of fundraising for local charities and engaged with city wide local organisations such as Lincoln Islamic Association and a nursery school.

You and some of your members are very passionate in fundraising and with all the preparation for the events and the day to day affairs of the society. May you and the Islamic society's good work continue to inspire the people on campus and at large with the passion, dedication and compassionate act of working together to build a peaceful campus. May the remaining academic year be a fantastic one.

Yours Sincerely

Subash Chellaiah
University Chaplain
