

Referenceletter for Mrs Beatrix Jakubicka and Mrs Gisela Jahn

I had the pleasure to get to know and to appreciate Mrs Beatrix Jakubicka and Mrs Gisela Jahn in the course of the preparations of the event „Friedenskette der Religionen“ (“Peace Chain of the Religions”).

Already during our first meeting I was deeply impressed by the conviction and commitment and at the same time the responsibility the two ladies showed for the cause. Their wholeheartedness towards interreligious topics is admirable.

They managed to gain the support of the representatives of the different religions, the Christian as well as the Jewish and the Islamic ones. With their open and charming manner they allowed a successful collaboration in a pleasant atmosphere.

During the realization of the concept Mrs Jakubicka and Mrs Jahn showed a strong sense for the organization of the event and the procurement of the event to the public. Thus they were able to realize the necessary public relation work and thereby developed a network of experts and supporters. Hence they achieved the participation of thousands of people and large media response in TV, radio and newspapers.

Through the event of the Peace Chain it was possible to set a strong signal for tolerance, peace and international understanding in Munich, Bavaria and even further.

I am very grateful to Mrs Jakubicka and Mrs Jahn for the confiding collaboration. I would not hesitate to work with them again on possible future projects.

With my blessings
