WHY: IOT address the Maydan Wardak Populace and urge them to pursue a life of peace and prosperity free from AAF harassment and crimes

SIGNIFICANCE:

- LT Hoja Mohammed is passionate about unifying the Wardak Populace against foreigners who disrupt the peace and prosperity that he feels the citizens of Wardak are entitled to
- This is the third segment of a weekly ANA leader program on Peace Radio
- Hoja Mohammed drafts his message with no input or influence from CF

OBJECTIVES SUPPORTED

- IO Objective BY11: Exploit Taliban behavior inconsistent with the Taliban Code of Conduct; use examples of this behavior to highlight the AAFs true nature as hypocrites, or those who wage false Jihad
- IO Objective BY13: Create and Widen fissures between tacit and active AAF supporters
- IO Objective BY3: Exploit the uneven application of radical, suppressive AAF ideology against the local populace in such a way that makes the AAF irrelevant
- IO Objective BY15: Employ Afghans to inform and educate the local public on a range of development, governance, and security issues vis-à-vis the Bayonet Radio Network and other media.

“Dear Listeners of peace radio, peace be upon you. As this station is named peace radio, all the inhabitants of this Historical province only wish for peace, and peace is a word which begets prosperity. In the end we hate those who recite the name of battle, and rather hear peace, so hope fills our heart. Let’s compare the peace and fighting on two sides of the scale, the peace will bring a bright tomorrow, and conflict will bring a horrible fate.

During the last three decades civil war was brought to every corner of this country; just ruins, orphans, widows, martyrs, children without education, livelihoods destroyed, livestock destroyed, with every family living in sorrow and sadness. Basic Human rights, and the right to have a good, calm, prosperous life were denied. These rights are possible with peace. Peace brings prosperity to our countrymen. Peace allows every farmer to work day and night without any fear, and allows every shepherd to tend to his flock and bring them to pasture without any problems

Children are Afghanistan’s greatest asset, they go to schools to accomplish their studies and become the treatment for this wounded nation and country. Lets come o country men and plant the tree of peace and those who share the hatred of violence will sit under and benefit from its shadow.

I say we should never allow the foreign puppet servants to destroy our schools, bridges, under the false name of Islam and mujahedeen. We must not provide them asylum and shelter, they are few and they lack the ability to battle against our national army. They act as thieves, plant road side bombs, and then escape, leaving you with the deadly consequences. So don’t allow them to disrupt the peaceful environment of your villages.

Create a council on village defense and follow the instructions of your village elders. Gain the reputation of Peace for your village by not allowing the enemies to use your village as fighting positions against the ANA, ANSF, and CF. Live with Peace and Serenity!

Purpose / Mission

IOT provide ANA leadership the opportunity to address the populace, highlight their achievements, and lobby for peace

Units / Attendees

1/1 COY 2nd Kandak LT Hoja Mohammed.
