To

Whom it may concern

We, International Buddhist Education Center (IBEC) have been cooperated with the HWPL starting from 2014, by attending in the World Alliance of Religious' Peace Summit. After that, as a publicity ambassador of HWPL, I have been communicated with HWPL's staff and planned for peace work in Myanmar. We supported the HWPL to hold one peace walk and four peace dialogue in IBEC, Sagaing, Myanmar.

The peace dialogue of the HWPL is very unique, since it is based on Holy Scriptures. It is helpful to understand other religions in short time since we can compare different religions under the direction of HWPL's title. After we held peace walk with different university students, they got awareness of world peace. Moreover, people who live around Sagaing Division not only they get awareness of world peace but also the rate of interesting to other religions rises.

At last, we would like to say that the HWPL is a very effective international organization which can help to improve mutual understanding between different religions and to get the world peace.

Note: This letter is only dedicated to use as a reference for United Nations.

May the noble triple gem protect you
