Event Details: It was a beautiful and harmonious walk in one of the most beautiful and well-known parks of Goiania. The goal was to bring together people from the most diverse faiths; spiritual, religious and non-religious traditions for friendly conversation and sharing of spiritual practices. At the end a sharing wheel of the sacred was made in which each one was able to speak, manifest his faith and share his experience. Dances and songs of various religions were sung. Besides the people who went there for the walk, other people joined it on the way. It was beautiful.

The impact of this activity was to bring together people from different denominations and to conclude that each one seeks peace, contentment, and solidarity with the suffering of human non-human beings. The participation of children brings us the hope of an egalitarian and unprejudiced world.
