To Whom It May Concern

I wish to extend our heartiest welcome and appreciation for the establishment of an Interfaith Harmony Week by the UN.

Our work and endeavours to realise a dream of love woven among the many faiths and cultures in the world has borne fruit in this resolution.

Much hard work continues among Faith leaders and the congregants and with this type of inspiration much more could be achieved. It's now for member states to extend their cooperation in establishing worthwhile activities during this week in February and bring the joy of true love to the world.

The Canadian Council of Imams was established 19 years ago to liaison among Muslims and the three layers of government and the interfaith communities in Canada and abroad.

Sincerely,

Yours humbly,

Habeeb Alli

Secretary

Canadian Council of Imams
