The World Interfaith Harmony Week
20 Sa'ed Bino Road, Dabuq,
PO BOX 950361,
Amman 11195, JORDAN

Dear Friends in Peace,
Greetings.

India Peace Centre* extends its whole hearted support to the World Interfaith Harmony Week. The children of Global village while brought closer to each other by increasing mobility and transaction of all kinds, a good sign of forming universal human family, are also deeply struck by sense of anxiety borne out of impersonal relations, perpetual economic transition, hyper materialism, and increasing complexity of life.

While we find we have knowledge explosion that brings the best of religions and philosophies to everyone's reach, the 'social being' tends to go into optimum comfort zone, into socio religious ghettos. Unless we promote the culture of harmony among the masses, these complexities of modern development instead of helping human community to evolve, would rip through the society on communal and racial lines.

The One Creator seeks us to build oneness of life on earth. Religions give us the wisdom to build Harmony in this abode. Let us make the purpose of God a reality by coming closer to each other, before the innate centrifugal forces toss us off.

We in IPC do organize a series of Harmony Program every year. This year we will do some of them on the occasion of WIHW.

I solidarity and Peace,
Dr. D. John Chelladurai,
