

Hello,

Trust you remain well.

I would love to extend my greatest appreciation to His Majesty King Abdullah II of Jordan for his continuous efforts and action in building peace around the world! I highly support the World Interfaith Harmony Week, and will try my best to make this week an international phenomenon by spreading this great message throughout YARA's online presence and projects.

Many of the problems around the world are related to:

- The misunderstandings of the three monotheistic religions,
- Lack of knowledge and/or implementation of religions beliefs,
- The misconceptions of religion - in which the media plays a significant role in.
- The effect culture and tradition have on religion.

I believe that these topic are very important and should be discussed in a more frequent manner. I personally aim for a better world, and I will continue to support the WIHW.

Best Regards,

Amir Shihadeh
Founder & President
