Re: Statement Regarding Racist Bullying in Toledo

Recently the ongoing issue of racist bullying at our GM plant has drawn a very negative picture of our community. As faith leaders of Greater Toledo we want to affirm that such racist activities are definitely not welcome here. We urge that General Motors and the union make every effort to eradicate this racist atmosphere. We urge that the city continue to investigate racist activities, such as a noose in a government vehicle. Further, we wish to affirm that, as a Compassionate Community, we stand against systemic racism anywhere. We would be willing to assist in any way possible to promote peaceful relations among all of our citizens.
