

## WORLD HARMONY ILA INFO PROJECT – YEMEN WHERE HARMONY IS JUST A DREAM!

**DIRECT IMPACT: 78 PEOPLE – (YEMEN)**

**ESTIMATED INDIRECT INFLUENCE: ? hard to measure**

**Date: - 2/11/2019**

Dear Lucie

We will complete tomorrow our campaign first stage for the Assistant to Yemeni children and we included your logo in this campaign and we are providing children with food baskets and clothes .

I will forward you with the pictures and videos after tomorrow

I hope you address to your people also to participate in such campaign

It would be great that you make your children in USA don't forget Yemeni children and send gifts and aids and support them. This will be unique in that a child in USA with a child in Yemen will participate in aid and assistance that helps to go to school continuously And that there should be new friendships between children from the West to the East This will have a future impact for this new generation that will help them live in peace and harmony I hope you like my idea This is what I always think of. This is the best way to peace

Food aid was distributed to 18 poor and displaced families The total will be about 78 people will be enough to feed them for one month

### **How would we use the WIHW prize?**

We would immediately invest it to:

1. Development of Harmony projects worldwide
2. Promotional strategies to make awareness worldwide
3. Development of workshops and training ambassadors
4. Travel expenses to present it to the leading organizations, law makers, educational departments and decision makers.

## 5. Purchase of art materials and worldwide shipping cost

### **Why is it important for our organization to be recognized by H.C King Abdullah ...of Jordan?**

We believe that recognition of our work by H.M. King Abdullah II. of Jordan and his WIHW team will make Children's Voices louder and they will be heard by decision makers worldwide!

Future starts now and children want to be a part of shaping the world they will live in!

They are too young to vote, too young to choose their own religion, too young to talk to the leaders and decision makers, travel the world and learn about others, make their ideas into reality and that is WHY they need organizations like International Little Artists Foundation in order to express their ideas, hopes, dreams, wishes and contribute to shaping their:  
**"FUTURE, GLOBAL & INTERFAITH WORLD"!**

### **How do we plant a seed of Interfaith around the world?**

Action speaks louder than just a talk!

As a Non-Governmental grass-roots organization we have been working with thousands of children and their caregivers worldwide. We have seen and heard testimonials of children from different backgrounds. Most of them care to make this world a better place to live and coexist. If you create a space and give proper tools to children, they are ready to create – connect – communicate – collaborate – cooperate!

Children open their hearts, minds and get excited of given a chance to be a part of something bigger leads to spark a huge flame of new ideas how to connect the world and solve unsolved problems.

Their creativity and pure way of thinking is refreshing!

We believe that listening and connecting children of today will lead to a future of global & interfaith world where people will learn to work together.

### WHO is International Little Artists Foundation?

Our organization, International Little Artists Foundation, has been giving a Voice to the Children around the World since 2014.

ILA has been promoting local, regional, and global Cross-Cultural initiatives, and is developing curriculum, workshops, projects, training and consulting other organizations in creative engagement between diverse communities. We work with all people and especially children and youth. Our goal is to contribute to research of the global creative education.

About our founder and visionary

All projects, international contacts and communication is done by our founder Lucie Valisova Hake. She earned the trust of many people from diverse communities and different religions. Her innovative thinking has been benefiting many organizations around the world and helped people to create new ideas how to connect and help others.
