

# „ONE PRAYER FOR ALL RELIGIONS“

Our most far reaching project for WIHW 2020 was the invitation for people from different faith for one common prayer, every time, they hear any church bell ring, a muezzin, a temple bell or sacred drum. Or if somebody is seeing a sacred building or holy place in nature.

***„Dear God, Allah, Great Spirit, Mother Earth,...(or the name you want to choose), please bless and strenghten my thoughts, my heart and my hands, so that I may co-create more Heaven on Earth. Thank you“***

Or as short version „May I co-create Heaven on Earth everywhere“, every day on a special time, according to other invitations for prayer communities worldwide.

We started this project with refugee women from Afghanistan, Syria, Somalia, Cechenia and some of Austria on Lienz January 29th 2020.

In the meantime we spread the idea with Facebook and mails to different organisations like:

- Austrian Television Company for their religious programm
- The World Council of Churches in Geneve
- Humanity's Team worldwide online community
- Lynn McTaggart and James Twymans global prayer commuities
- URI global network
- URI Europe CCs
- Parliament of the World Religions Facebook page
- Unify
- Unity Earth
- other interreligious groups
- and many more to come in the time ahead in different languages

Such a card could be a fundraising product for money to be able to do more work.
