Letter of Support

Through this letter, I want to express my personal support and the support of the organization I lead, wishing as many successes in the next activity of World Interfaith Harmony Week 2021.

For many years now, World Interfaith Harmony Week has become one of the most important activities in the world related to interreligious relationships and dialogue in the world, bringing as close as possible the well-known religious figures of the world, for the good of all humanity, free from prejudice and for one single goal, that God is One and human beings should strive to live in peace with one another.

Our organization will always support such activities.

I wish that this year also may God facilitates your work for the good of all mankind.

Be always blessed!

4 January 2021
