For World Interfaith Harmony Week 2021 we **launched** our Beyond Climate Crisis series with a face book live event **The Climate Crisis: Beyond Politics** on 24<sup>th</sup> February. We used the wonderful platform of World Interfaith Harmony Week to highlight that the climate crisis we face is 'beyond' anything that humanity has previously faced.

The World Interfaith Harmony event saw the launch of a series of 10 face book live climate-based events which will include Beyond Religion; Beyond Science; Beyond Economics; etc. This first event was geared towards young people and our panellists were Ross Greer, MSP Green Party (Christian), Ravinder Kaur Nijjar, Religions for Peace, (Sikh) and Kat Jones, Stop Climate Chaos (NGO). The panellists share their interfaith-based perspective on why working together was one of the most important aspects of tackling the problems we face. Hundreds have engaged with the face book live event and the full recording can be accessed below;
