## WORLD INTERFAITH HARMONY WEEK REPORT

Meeting and rehearsal JOIRE (Joven Ensemble Interreligioso Español /  
*Spanish Youth Interfaith Ensemble*)

Madrid | 11.02.2023

On Saturday, February 11, 2023, the Spanish Youth Interfaith Ensemble ([Joven Ensemble Interreligioso Español - JOIRE](#)), a formation that emerged by the initiative of [Arco Forum](#) within the framework of the European Community project, co-financed by the European Commission, and responsible for a series of [Concerts of Three Cultures](#) in the framework of the World Interfaith Harmony Week, gathered at the Conservatory of the [SJE School](#) to celebrate a very special rehearsal and meeting.

The Spanish Youth Interfaith Ensemble is also a coexistence project in which musicians exchange ideas and experiences; JOIRE represents a way to broaden their personal and cultural horizons and enrich themselves, not only as musicians, but also as human beings.

This meeting included the participation of the team from the Spanish TV channel [RTVE's "Medina"](#) programme, who recorded the rehearsal and interviewed the musicians.

Many musicians, from the Muslim, Christian and Jewish traditions, participated. They shared their views on issues like concord and interfaith dialogue, and what being part of JOIRE means for them. These reflections will be part of a programme dedicated exclusively to this rehearsal and meeting that will be broadcast soon.

Part of the rehearsal has already been reflected in the "Medina" programme broadcast on February 26, 2023, which can be watched [here](#).

Temir Naziri, the group's cultural promoter, and Julio Maroto, its musical director, were invited by Bouziane Ahmed Khodja, the host of this weekly programme, to talk about JOIRE and spread their message of interculturality and harmony through music. Weeks later, the recording team of this same programme attended this rehearsal, held at the Conservatory of the SJE School in Torejón de Ardoz, Madrid.
