

Together to Create Clean Environment During WIHW

2025

We Noticed as we go to school everyday ,lots of piles of Rubbish were put besides the walls of schools. This action was not only before our school , but it was spread among primary, prep and secondary schools , either in city , towns or villages. This the main problem occupied our minds to think in solutions during the celebration of World Interfaith Harmony Week 2025.

Mrs. Eman Youssef the principle of achieving the idea sent an invitation to the Head of Education Sector to participate in this convey of cleaning the environment around the surroundings of schools either preparatory or secondary stage. Mr. Emad , The Head of Secondary Sector shared in achieving creative idea , which was formed a team of the school staff in each stage to do some tasks to prevent pollution and the spread of bacteria and germs in the air and keep our students and all staff healthy anywhere.

We collaborated on the first week of february 2025 from 10.am to 5.00 pm to generate our ideas and achieving them. One of the ideas was to send a letter to the local police station to guard the areas of schools to prevent people from throwing rubbish at night aside schools.

Another ideas , some of the students volunteered to visit all neighbours and asked them for co-operation and put our hands together and hang notice about “cleanliness of godliness”. Other volunteering team put bins beside schools to help people to pick up rubbish and put it in the bins . lots of bins were put along the street and inside each class. Another volunteering team began to sweep and wash the floor of school and classes .

They also hung slogans as “ The school is your home , keep it clean” and “ Cleanliness of Godliness”. The third teams began to plant trees and clean the garden of school from weeds that are harmful to plants and a way of increasing bacteria .

One of the participant was good in composed music and melody on the Oud. The student Abanoub with Mr. Ashraf the specialist in Music succeeded in composed a music about the Peace . Mrs. Eman provide them also with verses about Peace to compose it. It’s was really a great event to memorize with the Harmony week.

We as a team appreciate collaboration and critical thinking in solving problems and we appreciate also creativity ideas and self- regulation among students and the staff of each organization. We also appreciated the staff who asked to say good advice in Mosques and Churches to guide the citizens about the importance of Cleanliness in everywhere they live .

We were so happier to see our ideas came to an action through publishing our ideas in our site and in google sites to increase the amount of Oxygen through cleaning the environment of

pollution , germs and bacteria , and trough planting trees , flowers and green land. Everyday and night our title is creating clean environment everywhere . We managed to take photos as a memorization of this harmony week event year on the places and garden we have cleaned and planted with all staff , students and visitors.
