

"Harmony Week" Book

We are delighted to introduce our new book "Harmony Week" , during the celebration of WIHW, a great initiative was presented by HM king Abdullah II ,of Jordan, on 23rd September ,2010 at the UN Generally Assembly.

As we work inside the Local Educational Directorate, we have an idea of how to celebrate and share "WIHW" , along our governorate and our state this year , so we have a long time through the year of doing a distinguished event. We suggest together to collect some more information from WIHW website to help us as a team to document it in a book , carry the same event and an extension of WIHW site to help people to read it offline as they sit in a home , library, club, travelling as a booklet inside their pockets.

Once, we have finished preparing "Harmony Week" book , as an electronic book .We invited our colleagues , neighbors and friends from different religion to attend our webinar or an online meeting on 1st February,2026. We prepared CD ,including a copy of the book to distribute it to those who face any obstacles ,either inside their home , community or an internet problem . We managed to distribute 300 a copy of CD to different families.

The purpose of the "Harmony Week" Book is to encourage people on living in happiness , tolerance and peace with different people , whatever their religion is , and deduce any disputes , through the great message to " Love of Good and Love of Neighbour"

To reach the message to all people in our state , we created a website , including social media and displayed our book.

The book is an extension to WIHW site as it includes links and help reader to how easily join the site by your email for registration . There is also links to how create an event and how to upload it to the site , we discussed also the important to document your report with media ,images, links , videos and audio. We discussed also the main components of the WIHW site and we connected it to the book.

As we see smile over faces , we realized that we achieved our goal to convey WIHW message.
